Subject: Revision of LMI on Operation Documentation
System(LMI/OD/GEN/002)

LMIs are reviewed periodically for further improvement and incorporation of recommendation by COS if any. Recently a new version(COS-ISO-00-OD/GEN/002 Rev. No.: 5 June 2021) was issued in the month of June 2021 with respect to the LMI for “Operation Documentation System”. The following recommendations of CC-OS in LMI were incorporated in Site LMI document.

Revised : 5.1 - Responsibility for obtaining approval will be of the concerned HOD TC activities

5.4 - deleted

5.4.1 - draft document to be sent to other corporate functions

5.4.4 - New document shall start with “Rev.No.-0”

5.7 - records and numbering for review and/ or revision

The LMI is revised and necessary changes are included in the LMI.
May please be approved by competent authority.

OPERATION DOCUMENTATION SYSTEM

1.0 PURPOSE

This directive describes the formal documentation system to be implemented within the Operation Division of NTPC.

It establishes the purpose, initiation and control systems for documents issued by the Director (Operation) / Head of Corp. OS and Station Heads for implementation at locations within Operational Power Stations/units.

2.0 SUPERSEDED DOCUMENTS

Operation Documentation System: COS-ISO-00-OD/GEN/002 Rev. No.: 4 issued in November 2018.

3.0 RECORDS OF REVISION

Revised : 5.1 - Responsibility for obtaining approval will be of the concerned HOD TC activities

5.4 - deleted

5.4.1 - draft document to be sent to other corporate functions

5.4.4 - New document shall start with “Rev.No.-0”

5.7 - records and numbering for review and/ or revision

S. No	Existing provision	Revised (May 2021) provision
1	Responsibility for obtaining approval will be of the concerned HOD of COS. (5.1)	Responsibility for processing the document for approval through e-office will be that of HoD-in-charge of TC activities, with the support of concerned HoD of COS. (5.1)
2	The concerned HoD of COS shall obtain from HoD I/C TC activities or his representative, the standard format for preparation of draft ODs/OGNs. (5.4)	Deleted
3	The draft shall be circulated to Station Heads, REDs, other concerned HoDs within the OS Division for comments. (5.5.1)	The draft shall be circulated to Station Heads, REDs, other concerned HoDs within the OS Division and other Corporate function. The draft document shall also be posted on OS website (5.4.1)

4		ADDED the following (at 5.4.4): New document shall start with “Rev.No.-0”.
5	Documents would be uploaded in SAP and OS LAN (5.7)	 uploaded in SAP and OS website. The issue will be through softcopy only. (5.6)
6	5.8	ADDED the following (5.7): All OD/OGN/OINs shall be reviewed every two years. On review, if no revision is envisaged, a suitable record of the same will be kept and the document uploaded on OS website will be stamped. In this case, there will be no change in Revision no.
7	5.9	(5.9)Head of the power station will also form a working committee, comprising of members from Operation, TMD, BMD, Offsite, C&I, EMD etc., and headed by the Head of EEMG.
8	5.10 & 5.11 : merged	(5.9)Head of the power station will also form a working committee, comprising of members from Operation, TMD, BMD, Offsite, C&I, EMD etc., and headed by the Head of EEMG.
9	5.12 & 5.13 merged	(5.10) Head of EEMG shall put the LMI in the standard format with a distinct number, and take approval of the Head of the Project. Once approved, it will be ensured by Head of EEMG that the approved document is uploaded in Station LAN.
10	5.14	5.11
11	5.15 & 5.16 merged	(5.12) It will be ensured by the Head of EEMG that implementation of LMIs is checked through audits as envisaged in the system.
12	Added	(5.13) Head of O&M of the station shall ensure review of LMIs every two years, through respective area in-charge....

13		It will also be necessary for the Head of EEMG to demonstrate that a Management System exists within the Power Station to administer the receipt of the documents identified in (a) & (b) above and the subsequent implementation of LMIs at the location
----	--	---

4.0 DOCUMENT TYPE

4.1 Categories of documentation

Within the Operation Division Documentation System, the following categories will be used:

- i) Operation Directives.
- ii) Operation Guidance Notes.
- iii) Operation Information Notes.
- iv) Location management Instructions.

These categories are defined as follows:

4.1.1 Operation Directives (ODs)

It is a document issued under the authority of Director (Operation) on any aspect of the Plant Operation and Maintenance (O&M), the implementation of which is mandatory for all applicable power stations.

4.1.2 Operation Guidance Notes (OGNs)

OGNs are documents conveying advice and broad guidance issued under the authority of Director (Operation) on any aspect of Plant O&M, the implementation of which would be mandatory to the extent applicable to the particular Station.

4.1.3 Operation Information Notes (OINs)

This document is issued under the authority of Head of Corporate OS to provide information to Power Stations relating to technical matters. The information contained in these documents (OINs) is to assist Station authorities and to be acted upon at the discretion of Station Head.

4.1.4 Location management Instructions (LMIs)

These documents are management instructions prepared and issued at station locations which are derived from Directives, Guidance Notes or Information Notes, and authorized by the Station Head to instruct his staff on Station Policy. In addition, the Station Head may wish to include within his LMI system other matters of Station Policy which he wishes to introduce and which allows him to effectively discharge his managerial responsibilities. LMIs are by definition site-specific, mandatory documents.

5.0 PROCESS

5.1 Responsibility

HOD in charge Technical Compliance activities, in Corporate Operation Services shall be the Overall Coordinator for issue of ODs/OGNs/OINs. The concerned HODs in Operation Services Division shall be responsible for identification of subjects of OD/OGN/OIN in their respective area and preparation of draft of such documents. The responsibility for processing the TC document for approval through e-office will be that of HOD in-charge TC activities, with support of Concerned HOD of Corporate OS.

5.2 The need for preparation / finalization and issue of ODs/OGNs/OINs may arise from any group within the Corporate Operation Services in their respective field. The concerned HOD shall identify the subject / area on which any of the above document is proposed for issue and list out the various inputs required for preparation of such document.

5.3 The following may be the input documents for preparation and finalization of ODs/OGNs/OINS -

- OEMs O&M manual
- OEMs O&M manual
National/International Standards
- Practices in other Power utilities/NTPC Power Stations.
- Technical documents prepared by other Power utilities.Study/Investigation Reports.
- Findings/deliberations/recommendations of workshops, seminars,conferences
- Technical circulars, data bank of equipment's, peer group reports anal other technical journals/papers etc.

The input documents shall be reviewed by the concerned HOD who would maintain record of inputs.

5.4 The draft of the document shall be prepared by concerned HOD in OS and sent to HOD I/C TC activities. The HOD I/C TC activities or' his representative shall review /modify the draft document, if necessary, in consultation with concerned HOD as per the Standard format.

5.4.1 The draft of ODs/OGNs shall be circulated to all Station Heads, Regional EDs and other concerned HODs within the OS Division and other Corporate function. The draft documents shall also be posted on OS website. On receipt of comments, the concerned HOD in consultation with HOD I/c TC activities shall examine the comments and incorporate the relevant changes in the draft of ODs/OGNs.

5.4.2 The preparation and finalization of OINs is internal to Operation Services and no consultation from any agency outside Corporate OS is required.

5.4.3 In case of exigencies, Director (O) can issue an Operation Directive or Operation Guidance Note, without going through the process as detailed in clause 5.4.1.

5.4.4 Document numbering will be of the form COS-ISO-00-< x > (where 'COS' indicates the issuing division, 'ISO' indicates the issuing department, '00' indicates that the document is not specific to any particular station, and 'x' is document unique number as described in following paragraphs).

The ODs, OGNs and OINs will be subdivided into five main groups and numbered as follows:

- i) General : GEN/(001 upwards)
- ii) Operation : OPS/ (001 upwards)
- iii) Environmental : ENV/ (001 upwards)
- iv) Commissioning : COM/ (001 upwards)
- v) Engineering: ENG/ (001 upwards).

The documents under main group (ii) i.e. Operation: OPS/ will be further grouped in seven sub groups as follows:

- a) OPS/C1V(001 upwards)
- b) OPS/MECH/ (001 upwards)
- c) OPS/ELEC/ (001 upwards)
- d) OPS/C&I/ (001 upwards)
- e) OPS/CHEM/ (001 upwards)
- fi OPS/SYST/ (001 upwards)
- g) OPS/PERF/ (001 upwards)
- h) OPS/HYD/ (001 upwards)
- i) OPS/RE/ (001 upwards)
- j) OPS/SAFT/ (001 upwards)

For example: COS-ISO-00-OD/COM/003

Document number <OD/COM/003> will be interpreted as the third (3rd) Operation Directive related to Commissioning matters.

COS-ISO-00-OGN/OPS/MECH/004 will be interpreted as the fourth (4th) Operation Guidance Note related to Operation in mechanical area.

New documents shall start with “Rev.No. - 0”

5.5 The Competent Authority for approval of ODs and OGNs will be D (O). For OINs, ED (OS) will be the approving authority. HOD I/C TC activities shall submit the draft for approval through Head of Corp. OS to Director (O) for ODs & OGNs. Concerned HODs of OS shall coordinate for obtaining approval of competent authority.

5.6 These documents shall be issued by HOD I/C TC activities incorporating the approval of Director (Operation) (for ODs and OGNs) and Head of Corporate OS (for OINs) and would be uploaded in SAP and OS Website. The issue will be through soft copy only.

5.7 Review/Modification of the Documents (ODs, OGNs and OINs):

All OD/OGN/OINs shall be reviewed every two years.

For review/modification of the documents, same procedure as for main documents would be followed. However, no partial modification would be issued; instead the complete document would be revised and issued. The revision No. 1, 2, 3.... would be marked at the place of the modification or at the end of the paragraph. If, however, this is not possible, a separate clause may be introduced in the document "Records of Revision"/ "Revision Details". On issue of a revision of any of these documents the earlier version will stand superseded.

On review of a document, if no revision is envisaged a suitable record of the same would be kept and the document uploaded in OS website will be stamped. In this case, there will be no change in Revision No.

5.8 Based on ODs, OGNs, OINs the Head of the Power Station shall issue Location Management Instructions (LMI) as per procedure to implement the instructions contained in ODs/OGNs/OINs.

It will be the responsibility of Head of EEMG in the station to ensure timely preparation and implementation of LMIs, and their uploading on the relevant webpage. The Head of EEMG in the station shall ensure that all relevant content of OD/OGN/OIN is captured in LMIs.

(Responsibility – Head of EEMG)

5.9 Head of the power station will also form a working committee, comprising of members from Operation, TMD, BMD, Offsite, C&I, EMD etc., and headed by the Head of EEMG. The working committee shall evaluate the document's relevance to the station. If found relevant, it will identify the department for preparing the draft document along with interfacing departments, if any. Responsibility of LMI preparation will lie with respective Area In-charges as identified by the working committee. The concerned Area in charge shall seek comments / assistance from interfacing departments, if any, to be included in the draft LMI. The working committee shall also monitor the progress of the preparation of the LMI.

5.10 Putting the LMI in the standard format with a distinct number, and take approval of the Head of the Project. Once approved, it will be ensured by Head of EEMG that the approved document is uploaded in Station LAN.

(Responsibility- Head of EEMG)

5.11 The LMIs should be studied thoroughly by the working level executives and concerned Department should take suitable steps such that the provisions of the LMI are implemented. Records are to be maintained, if required, as per the provisions of the LMIs.

5.12 It will be ensured that implementation of LMIs is checked through audits as envisaged in the system.

(Responsibility- Head of EEMG)

5.13 Head of O&M of the station shall ensure review of LMIs every two years, through respective area in-charge. The process of review would be in line with clause 5.7. The Record of Review may be generated by putting up for approval of the area in charge and attaching it with the existing LMI.

5.14 LMIs are required for:

- (a) Company Procedural Documents
- (b) Instructions issued by a Power Station Head to his staff

It is the responsibility of each Area-in-Charge to ensure that an adequate system exists at his location to ensure compliance with mandatory documents issued within the Operation and Maintenance Documentation System. This System will require conversion of these documents into LMIs which will then be issued to appropriate station staff.

It will also be necessary for the Head of EEMG to demonstrate that a Management System exists within the Power Station to administer the receipt of the documents identified in (a) & (b) above and the subsequent implementation of LMIs at the location.

6.0 REVIEW

The document shall be reviewed by HOP (Simhadri) in every two years.

7. CHECKLIST :

S.No	Clause	Details	Frequency	Responsibility
1	5.9	Forming a working committee, comprising of members from Operation, TMD, BMD, Offsite, C&I, EMD etc. headed by the Head of EEMG	As and when required	HOP
2	5.10	Putting the LMI in the standard format with a distinct number and uploading in station LAN	As and when required	Head of EEMG
3	5.12	To ensure implementation of LMIs is checked through audits as envisaged in the system	As and when required	Head of EEMG
4	6.0	Review of LMI	2 years	HOP
