SIMHADRI

Note No :1

Ref:SMTTPP/SAFETY/2023-24/Note/1001403

Date:15/03/2024(16:33:11)

Subject:Approval of LMI on Safety Objectives and Plans

Subject: Approval of LMI on "Safety Objectives and Plans" -reg.

The LMI on Safety Objectives and Plans, Ref no. LMI-OD-OPS-SAFT-005, Rev:01, Dated: 09.02.2024 is reviewed and changes incorporated in the LMI as follows:

ANNEXURE 1 – Minimum Safety Objectives is newly added to LMI.

This supercedes LMI/OD/OPS/SAFT/005, Dated: 28.10.2021.

Put up for approval of Competent authority.

Enclosure:-

1. LMI on Safety Objectives and Plans 2024 Draft.
2. OD on Safety Objectives and Plans 2024.
3. LMI on Safety objectives and Plans 2021.

SAFETY OBJECTIVES & PLANS

1.0 Introduction

NTPC Simhadri Top Management is committed to attain its business objectives through ongoing compliance and continual improvement of its safety system. As part of this commitment, the Simhadri Top Management has ensured that: Safety Policy is established. Which recognizes that all accidents are preventable and has as its objective, the provision of a safe working environment and to strive for zero incidents at work. One critical aspect of this commitment are that safety objectives are formulated, safety plans are in place, and periodic management reviews are conducted that include safety performance reviews.

Objectives and Plans provide focus and direction to the occupational health & safety efforts and are an effective accident prevention technique. Management programs, objectives and plans that target unique safety and health issues are significant tools in the development of an organized approach in accident prevention.

The objective of this document is to define a method to establish, maintain and review Safety Objectives/Targets and, Plans/Management Programs.

This LMI does not contain elements that can vary as per location. Hence no modification or, adaptation for location is expected.

2.0 Superseded Documents

COS-ISO-00-OD/OPS/SAFT/005 Rev. No.: 00 October 2021

3.0 Revision Details

Annexure.1- Minimum Safety Objectives

4.0 Scope

Applies to all activities and services carried out in all operational projects of NTPC.

In a project where NTPC has outsourced operational responsibility to third-parties, the designated person responsible for such a project shall be accountable for the assurance aspects of this directive to ensure that the safety objectives and plans are formulated for such projects and periodic reviews carried out as part of contract compliance reviews and that such performance is included in the respective agency's contract reviews.

5.0 Roles & Accountability

1. Head of the Project/Stations (HOP) is accountable for:

- a. Ensure a system is in place for assigning safety objectives to every employee in the location along with performance measures that would confirm achievement or, otherwise of such objectives.
- b. Translate the location safety objectives to individual functions.
- c. Ensure a system is in place that tracks progress and periodic reviews on the extent to which the individual objectives have been met.
- d. Ensure performance of the projects' employees on such objectives is included in their individual periodic performance appraisals and in addition in case of Heads of Sections that their section's performance against objectives is included as part of their individual periodic performance appraisals.

2. Head of Function/Section is accountable for:

- a. To assign functional/section-level objectives to individual employees.
- b. Assign performance measures for every objective against which achievement shall be measured.
- c. Track and review periodically with individual employees in the function/section the extent to which the objectives have been met.

For projects where operations and maintenance functions are outsourced to third- parties, the designated Person accountable for the performance of such a project, wherever he/she is located, shall be accountable for the above role. In this scenario, the safety objectives shall be for the location outsourcing agency as a whole and shall be included as an agenda item in every review of such project's performance.

3. Individual employees shall be accountable for their respective objectives and plans, including flagging deficiency of resources to achieve the objectives and plans, at appropriate levels.

6.0 Requirements

6.1 Safety Objectives & Special Management Programs

A system shall be in place to assign safety objectives and targets in the location to all sections and individuals. Safety objectives shall be consistent

with the Safety policy, including the commitments to achieve Zero incidents, to the prevention of injury and ill health, to comply with applicable legal requirements and with other requirements to which the organization subscribes, and to continual improvement.

Responsibility:
Head of Section.

6.1.1 Inputs for Establishing Safety Objectives/Targets/Programs

The following shall be included as factors by a location in the process of establishing and reviewing its objectives:

- Legal and other requirements including revisions and new requirements.
- Identified risks.
- Consider technological options, financial, operational, and, business requirements, and also the needs of relevant interested parties/stakeholders.
- Changes in the composition of the workforce and systems like outsourcing.
- Results of accident investigations, risk assessment reviews, and audits.
- Results of safety & occupational health-related surveys.
- Resource conservation efforts.

6.1.2 Requirements to be met by Safety Objectives

Safety and Occupational Health related management programs, objectives and targets shall meet the following requirements:

- Annual safety and Health objectives and targets shall be established at Function, Department, Section and individual employee levels within their respective responsibilities and accountabilities.
- Objectives and targets should be specific, measurable, achievable, reasonable and time-bound.
- A long-term objective can be broken down to smaller short-term objectives that can be assigned to one or more, sections or individuals.
- Written communication using any official channel shall be used to confirm to Employees about their individual objectives and targets for the year such that they are aware of the measures against which their performance would be assessed.
- All such objectives shall be documented and captured in the performance management system process of individuals.

Responsibility:
Head of Section

6.1.3 What Cannot Be an Individual Safety Objective

While the intent of the Safety Policy is to be achieved through employees, company policy of zero accidents cannot be designated as an

individual objective. Such an objective becomes fuzzy at micro level and defeats the purpose of having individual objectives as an employee will not have tangible targets that are in his/her control to aim and fulfill. It is the series of micro (individual) objectives that cumulatively propel the company as a whole towards the macro intent of the Safety Policy which is zero accidents.

To provide further clarity on this aspect, typical safety objectives have been listed under Annexure 1.

6.1.4 Technical and Other Audits

Implementation compliance audit of this requirement can be part of a larger scope of technical or other audits. This is covered later in this document under 8.0 Audits.

Responsibility:
EEMG & MTP

6.2 Safety Plans

Safety Plans are formulated as Management Programs and other Plans to achieve safety objectives within a specified time frame.

Plans to achieve the set Objectives shall be documented including the resources requirement to implement the plan (financial, human, material, etc.).

All levels of location management should establish plans indicating how objectives and targets within their respective responsibilities and accountabilities are going to be achieved (what, who, when, how and including evaluation measures).

Any plan shall be made with implementation in mind i.e., it should be practical and be developed down to the operational level.

System should be established to track achievement of objectives and targets against set performance indicators.

Employees should be made aware of those objectives and targets, which may be affected by their activities.

Plans are to be periodically reviewed and updated including at individual employee level so that timely corrective action where required can be initiated. The periodicity of such reviews would depend on the complexity involved but shall be done at least quarterly.

Completion of plans, achievement of objectives with performance indicators evidencing such completion, shall be documented and captured in the performance management system / performance appraisal process of individuals.

In a project where NTPC has outsourced operational responsibility to third-parties, but continues, as the project developer, to have a legal obligation of ensuring a safe working environment, the designated person responsible for such a project shall be accountable for ensuring plans and programs are in place to achieve the safety objectives and ensure tracking and periodic reviews of safety plans. Records of such reviews shall be maintained by that person.

Responsibility:
Head of section

7.0 Records

Any record that is maintained as an electronic copy shall be in a format like secure pdf that cannot be edited.

All HOS shall maintain annual safety & occupational health objectives and targets and plans for their respective area of accountability; evidence of a system for tracking implementation of the safety plans against agreed performance indicators.

Site Safety Coordinator shall have access to the list of annual safety & occupational health objectives, targets and plans for the project; shall arrange to include the review of implementation status of the safety plans against agreed performance indicators of each Section, in the agenda of periodic safety reviews of the location by the HOP. Records of compliance shall be uploaded in a central repository.

8.0 Audit

The audit shall be a combination of verification of: system, records, implementation in the field and interviews.

System: Auditors shall validate the evidence of a system as specified under 6.1.

Records: Audit shall include verification of all the records detailed under 7.0.

Interviews: check with at least five employees randomly selected from different functions on their awareness of their respective safety objectives & targets. This shall include verification of resource identification, availability and awareness of the same at individual employee level. Heads of respective section/function shall be accountable for demonstrating compliance to the awareness requirements.

In a project where NTPC has outsourced operational responsibility to third-parties, but continues, as the project developer, to have a legal obligation of ensuring a safe working environment, the designated person accountable for such a project shall be accountable for ensuring periodic audits. Records of such audits shall be maintained.

9.0 Review

The Head of Project shall arrange for review of this LMI as and when required, or every two years.

ANNEXURE 1 – MINIMUM SAFETY OBJECTIVES

The following are the minimum expected annual safety objectives. The individual stations/projects can add objectives depending on their administrative conditions.

STATION-LEVEL:

Safety Framework KPIs of HOP.

At least 3 continual improvement initiatives covering any of: safety, environment, or, resource conservation.

SECTION HEAD & ABOVE:

- Annual review of legal/statutory requirements for their respective section or department or function, with all their team members. Line Manager shall certify evidence of compliance at the end of the year.
- Annual review of HIRA for their respective section/department/function with all their team members. Line Manager shall certify evidence of compliance at the end of the year.
- Quarterly Review of Contractor Risk and Safety Performance, Line Manager shall certify evidence of compliance at the end of the year.
- Have in place, a section/department/function assessment schedule with assigned roles for persons in their team. Where relevant, this includes field verification of implementation of PTW (permit to work) system and JSA (Job Safety Analysis). Line Manager shall certify evidence of compliance at the end of the year, in the form of %completed vs. scheduled for the year.
- Identification of general safety competency requirement for all outsourced persons in their respective section/department/function. Compliance to be maintained as per relevant LMI requirements. Line Manager shall certify evidence of compliance at the end of the year.
- 90% coverage of outsourced persons in refresher training on applicable (as per relevant LMI) standard general safety modules. Line Manager shall certify evidence of compliance at the end of the year.
- 100% completion of incident recall talks; Line Manager shall certify evidence at the end of the year.
- Where the Role does not have outsourced workers, deliver at least 12 (twelve) talks on any topic (incl., Incident Recall talks) to employees and/or outsourced persons of other Sections/Depts. Line Manager shall certify evidence at the end of the year.
- 100% compliance to good housekeeping incl., office spaces, scrap disposal, of their area. Line Manager shall certify evidence at the end of the year.
- At least one implementable suggestion to improve safety, occupational health, or environment in their area or, project.

INDIVIDUAL EXECUTIVES

- Report at least one near-miss every month.
- Make at least one suggestion to improve safety, occupational health, or environment in their area or, project.
- 100% completion of assigned section/department/function assessment schedule tasks. Line

Manager shall certify compliance at the end of the year.

- Where relevant, quarterly assessment of contractors' safety performance to be sent to Line Manager. Line Manager shall certify compliance at the end of the year.
- Where relevant, 90% coverage of outsourced persons in refresher training on standard general safety modules, in their respective area. Compliance to be maintained as per relevant LMI requirements. Line Manager shall certify compliance at the end of the year.
- 100% completion of toolbox talks; Line Manager shall certify evidence of such talks at the end of the year.
- Where the Role does not have outsourced workers, deliver at least 12 (twelve) talks on any topic incl., incident recall talks to employees and/or outsourced persons of other Sections/Depts. Line Manager shall certify evidence at the end of the year.
- 100% compliance to good housekeeping incl., office spaces, scrap disposal, of their area. Line Manager shall certify evidence at the end of the year.
