Ref:SMTTP/EEMG/2022-23/LMI/90042

Date:11/05/2022(09:43:44)

Subject:Approval for review of LMI

The Location Management Instruction (LMI) of "SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION" i.e LMI/SMTTPS/EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

Entire LMI is revised in line with CC OS revision no 3 April 2022(COS-ISO-00-OGN/GEN/003).

As per CC-OS revision role of Head of EEMG has been clarified in clause no. 5.8.1, 5.8.2. New clause 5.1.2, 5.1.3, 5.1.4 have been added.

Issue raised during last external audit is also complied.

Review of this LMI is done as per sechedule.

Approving authority for LMI is HOP.

Submitted for kind approval.

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

System for audit of location management instructions (LMIs) of power station

1.0 PURPOSE/INTRODUCTION

The system covers the technical compliance audit (Internal, external & third party) of location management instructions of power stations so that the Head of the station is fully aware of the status of the implementation of the LMI and take corrective actions in case of deviations. This will help the station to satisfy Technical Audit team constituted by corporate OS. The objective of the Technical Compliance Audit of LMI of power station are as follows :

- To ensure that power station has prepared the Location management Instruction in line with the technical compliance documents [(Operation Directives(ODs), Operation guidance Notes(OGNs), and Operation Information Notes(OINs)] and issued for implementation to all concerned.
- To ensure that LMIs prepared are in line with statutory standards and requirements
- To ensure compliance of LMIs in the power station, find out deviation and arrange time bound preventive and corrective action plan.
- To identify areas where the LMIs need updation/amendment and arrange time bound action plan for their modifications.
- To enable the power stations to comply Technical Audit Team constituted by corporate OS.
- To assist Power Station management in demonstrating to external agencies that the power station has in place sound technical system for achieving excellence in Operation and Maintenance .

2.0 SCOPE

Audit of LMI's of Simhadri Super Thermal Power Station

3.0 SUPERSEDE DOCUMENTS

LMI/OGN/GEN/003 ISSUE NO 1 REV. NO. 02 Date:
DECEMBER2019

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

4.0 RECORDS OF REVISION

Entire LMI is revised in line with CC OS revision no 3 April 2022(COS-ISO-00-OGN/GEN/003).

Role of Head of EEMG has been clarified in clause no. 5.8.1, 5.8.2 & Minor changes have been done in Annexure - 2.

New Clause 5.1.2, 5.1.3, 5.1.4 have been added

5.0 PROCESS

5.1 Responsibilities

- 5.1.1 The Head of O&M of the Power Station is the nodal point for the LMIs implementation. The technical compliance Audit of LMI's is an important tool for reviewing LMIs status.
- 5.1.2 Head of the power station will also form a working committee, comprising of members from Operation, TMD, BMD, Offsite, C&I, EMD etc., and headed by the Head of EEMG.
- 5.1.3 It will be the responsibility of Head of EEMG in the station to ensure timely preparation and implementation of LMIs, and their uploading on the relevant webpage. The Head of EEMG in the station shall ensure that all relevant content of OD/OGN/OIN is captured in LMIs.
- 5.1.4 It will be ensured by the Head of EEMG that implementation of LMIs is checked through audits as envisaged in the system.
- 5.1.5 There will be two Technical Compliance Audits of LMIs in each financial year as under:

(i) Internal Audit: The Station will conduct the first audit internally by the end of first six months i.e. by September every year, to be coordinated by Head of EEMG &MTP of Power Station.

(ii) External Audit: The second Audit would be external audit with the help of other Power Stations in the Region by the end of next six months i.e. by March every year and will be coordinated by Regional Headquarter OS.

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

- 5.1.6 There shall also be a third-party audit (with auditors who are external to NTPC) of LMI implementation at stations. The frequency of the audit will be once a year, after a unit becomes commercial in a station, and once in two years, for stations where two years have elapsed after its first unit has been declared commercial. The modalities of third party audit will be decided by concerned station / RHQ.

5.2 Internal Technical Compliance Audit of LMIs by Power Station

- 5.2.1 The Internal TCA-LMI would be done by the month of September every year. This would be coordinated by Head of EEMG Group in Power Station. **Responsibility(HOD EEMG/MTP)**

- 5.2.2 The Internal Audit Team would be at least a three (3) member Team – one member each from Operation, Maintenance and EEMG Groups and additional members as per requirement. The level would be Manager / Sr Manager / DGM/AGM.

The proposal giving the names of the Audit Team would be initiated by HOD(EEMG/MTP) of the Power Station before the month of August every year along with the names of one engineer each from concerned disciplines who would work as coordinator for that discipline (name to be finalized in consultation with Head of O&M). The proposal would also include the dates of Audit and its schedule. One member of the team would be nominated as Team leader. The proposal would be put up to HOP(Simhadri) approval and thereafter, it would be circulated to all concerned departments.

Responsibility (HOD EEMG&MTP)

- 5.2.3 The Audit Team can co-opt any other professional of the Power Station as per requirement, with the approval of concerned HOD.

5.3 External Technical Compliance Audit of LMIS by Regional OS.

- 5.3.1 The External TCA-LMI would be done by the month of March every year. This would be coordinated by Head of OS in Region.

Responsibility (SR-OS)

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

5.3.2 The Audit team would be at least a three (3) member Team – one member each from Operation, Maintenance and EEMG Groups and additional members as per requirement. The level would be Manager / Sr Mgr / DGM /AGM. The members would be drawn from the Region and Power Stations in the Region (other than the Power Station whose audit is being carried out). The proposal giving the names of the Audit Team would be initiated by **Head of OS** in Region by the month of February every year and put up to ED of Region for approval. This would include the dates of Audit and its schedule, which would be finalised in consultation with Head of O&M of Power Station. One member of the Team would be nominated as Team leader. After approval, this would be sent to the Head of Power Station, Head of O&M and Head of EEMG & MTP of Power Station where audit is being done. The Head of EEMG & MTP of Power Station would finalize the names of local coordinators of various disciplines in the Power Station to facilitate the Audit.

5.4 Third Party Audit

The third party Audit of LMIs would be done as per the frequency mentioned in clause 4.1.6. The responsibility of conducting Third party audit will lie with Head of EEMG & MTP at the station. The compliance of conductance of third party audit will be ensured by Head of OS of concerned Region.

5.5 Pre Audit Preparations

5.5.1 The dates of TCA-LMI internal or external Audits would be fixed in such a way that there would be gap of at least 15 days between this Audit and the Technical Audit of the Power Station done by Corporate OS.

5.5.2 The Team Leader of external Audit will confirm at least one week in advance to the Station Head in writing about his programme of carrying out the Audit, as per the Audit schedule finalised by the Regional Head Quarter.

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

5.5.3 The Audit Team Leader shall collect an authentic list and copy of approved / issued LMIs of the Station to be audited, well in advance as preparation for Technical Compliance Audit of LMIs. Based on the LMIs, the Audit Team may prepare a list of Plant Areas to be audited and a check list containing key checks of each LMI in the Plant Areas. A suggested list of Plant Areas is given in Annexure 1.

5.5.4 The Audit Team shall plan the Audit and make necessary preparations to cover the scope of the Audit including preparation of checklists.

5.6 Guidelines for Conducting the Audit

5.6.1 General:

- (a) Substantiated discrepancies should only be reported. For every exception/discrepancy reported, there should be objective evidence. This evidence should be shown and explained to the concerned engineers of the Power Station. Detailed identification / reference of discrepancy should be given in the Report (like exact area/location, equipment no./name, Work Order Card no., etc.)
- (b) Judicious selection of the representative samples should be such that all LMIs based on ODs are audited once a year and the other LMIs are audited once in two years (to be covered in internal and external audits). Samples should be selected by Audit Team. Only those samples as offered by the engineers of the Power station should not be accepted. Emphasis may be given on areas of concern as identified by Audit Team.
- (c) LMI audit should not be limited to the contents of the LMI, but also look into other related aspects also, such as intent, adequacy and effectiveness of the process, and interpretation of LMI in flow chart model wherever applicable.
- (d) Area wise competency record of executive's pertaining to various aspects of LMI also needs to be audited.
- (e) Where deviations are found, further samples should be examined. Judgment on the basis of a single finding or on an isolated incident should not be

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

made except when implications of any single incident / record are crucial. Formal discrepancy should be reported on the basis of a fully representative sample where a significant proportion of the samples taken was found to contain discrepancy.

5.6.2 The respective Coordinators and HODs shall make all the records available for the Audit as required by the Audit team.

5.6.3 Following checks may be exercised: -

- a. All issued documents indicate the LMI no., Issue no., Issue date and are approved by the Station Head.
- b. Soft Copies (Hard Copy only if required) of LMIs are available with the concerned working professionals.
- c. All LMIs are inline with Technical Compliance Document (ODs, OGNs, and OINs), issued by Corporate OS and meet the statutory and mandatory standards and requirements.
- d. The working level professionals are generally aware of the contents of the LMIs and are following them.
- e. All relevant records required to be maintained as per the LMIs, are available and are in order.
- f. Issue of copies of LMIs is controlled, the latest revisions are available and the older revisions have been marked superseded. Only the latest revisions should be available on LAN.
- g. Discussions should also take place with the workmen / supervisor and shift charge Engineers to involve them in Compliance of LMIs.
- h. Any other relevant area based on LMI

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

- 5.6.4 Any areas where additional LMIs need to be issued will also be identified.
- 5.6.5 Points of non-compliance must be discussed with concerned HODs/ area managers.
- 5.6.6 Audit Team shall also take into accounts the balance points of Action Plans of previous Technical Audits and review the status of the same and include the corrective action taken in respect of the same in the Report.
- 5.6.7 The respective Team Member shall record the deviations, if any, from the LMIs and furnish reasons for such deviations. A time bound action plan to correct the deviations should be made.

5.7 Preparation of Audit Report and Action Plan

- 5.7.1 After completion of the Audit, Team Leader shall organize a review / closing meeting with the Head of the Power Station which must be attended by respective HODs, O&M (In-charge) and concerned area executives. The deviations / observations and the Action Plans shall be discussed in detail.
- 5.7.2 The Report should be made within 15 days of Audit as per the format in Annexure 3. All non-conformities should be given a unique number in line with the numbering system given at the end of the format in Annexure - 4. An Action Plan should be made for the deviations observed during Audit. This Audit Report would be signed by all Team members. The Report should be digitally sent to:

- 1) ED (Region)

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

2) Head OS Region for monitoring by ORT Coordinator.

3) Head of Power Station

4) Head of O&M Power Station

5) Head of Corporate OS

Head of EEMG& MTP is responsible to ensure the implementation of same.

5.8 Post Audit Activities and Follow Up

5.8.1 The Action Plan would be reviewed on fortnightly basis by Head of O&M and Head of EEMG&MTP of Power Station and copies of minutes would be sent to Head of Station and all concerned departments.

Responsibility(HOD EEMG & MTP)

5.8.2 The Action Plan would be reviewed on monthly basis by Head of Power Station in the ORT meeting which is attended by Head of O&M, Head of EMG & MTP and the concerned HODs. The status of the action plan will be recorded in the minutes of ORT.

Responsibility-ORT Co-ordinator

5.8.3 Regional OS shall make an exception report of the status of the Action Plan along with the ORT exception report and send it to ED (Region) and Head OS Corporate Centre on monthly basis.

Responsibility-ORT Co-ordinator

5.8.4 Review by ED (Region) and Head of Corporate OS would be done as per requirement.

5.8.5 Audit report and the Action Plan with the status should be displayed on station LAN, wherever available.

Responsibility(HOD EEMG & MTP)

5.9 A flow diagram giving the activities of TC audit is given in Annexure – 2.

TITLE	SYSTEM FOR AUDIT OF LOCATION MANAGEMENT INSTRUCTIONS (LMIS) OF POWER STATION
REF No	LMI/SMTPS//EEMG-05/OGN/GEN/003 REV : 03 MAY 2022

5.10 Records

- i. Audit Report
- ii. Record of review of action plan by Head of O&M as per 4.8.1
- iii. Minutes of the ORT Meeting as per 4.8.2
- iv. Exception report by regional OS as per 4.8.3
- v. Record of review of action plan by Head of OS / ED (Region) as per 4.8.4, if applicable.

6.0 ASSOCIATED DOCUMENTS

Annexure - 1 Suggested Plant Areas for Technical Compliance Audit

Annexure - 2 Flow Diagram showing the activities during technical compliance audit of LMIs
