POLICY ON TECHNICAL MANAGEMENT SYSTEM

1.0 INTRUCTION

The existence of sound formal technical management system is a prerequisite to the successful operation of the plant and equipment owned by NTPC.

A comprehensive management system involves defining the policy, setting objectives, and establishing methods for monitoring the plant performance and initiating corrective action where deficiencies are identified.

It is important that the policy and objectives of the Company are clearly understood by all the staff within the Company. It is essential therefore, that the policy, objectives, and monitoring methods are adequately detailed within the relevant Divisional Formal Documentation Systems.

2.0 SCOPE

Policy on technical management system applicable for Corporate Operation Services division and all Stations.

3.0 SUPERSEDED DOCUMENTS

LMI/OD/GEN/001, Issue-01, REV: 01 Dec 2019

4.0 RECORDS OF REVISION

Redrafted with necessary correction and sent to new format. In structure “Division” replaced with “Corporate Operation Services Divisions” & “Division Director” replaced with “Director (Operations)” and “General Manager” replaced with “Head of Project”.

TITLE	POLICY ON TECHNICAL MANAGEMENT SYSTEM
REF No	LMI/SMTPS/EEMG-07/OD/GEN/001 ISSUE NO:01 REV:02 Date: MAY 2022

5.0 STRUCTURE

The technical management system involves two specific levels of authority, namely: -

5.1 CORPORATE OPERATION SERVICES DIVISIONS

The Director (Operations) will amplify, as necessary, the Company Procedures to detail a stratagem in the form of Directives and Guidance Notes that will communicate Company Policy to the Head of Project.

In addition, specific Directives and Guidance Notes will also be needed to address specific technical matters and problems identified during power generation.

The Status of Directives will be mandatory and will require authorization by the Director (Operations) before issue.

5.2 POWER STATIONS

The Head of Project at each Power Station will issue instructions containing prescriptive detail which amplify Corporate Operation Services Documents whilst acknowledging the site-specific nature of these instructions.

The instructions issued by each Head of Project will therefore, by definition be site-specific, mandatory documents, which will instruct station staff on station policy.

At Simhadri SMTPS EEMG & MTP Department is responsible for coordinating and preparation and approval of the same. The approved copies shall be loaded in site intranet as well as COS web.

Responsibility (HOD EEMG/MTP)

The preparation and revision of LMI's shall be done by correspondinf sectional HOD's.

Responsibility (HOD's)
