Ref: SMTTP/EEMG/2022-23/EEMG LMI/326144

Date:

02/08/2022(12:46:28)

Subject: Approval of review of LMI on Guideline for Operation Review Team (ORT) Meeting

LMI on guidelines for operation review meeting is updated in line with CCOS (COS-ISO-00-OGN/OPS/ SYST/021 Rev. No.: 3 July 2022)

Following are the changes as per CC OS :

- a) SOP added in point 2, Vii
- b) TLA added in 2, xviii
- c) Clause 6.1.2 revised for RE Group ORT.
- d) Changes reg. PEM monitoring and discussion done in points 6.2.5.(v), 6.2.6(xiii), 6.2.7.(xxvii), 6.3.7.(xii), 6.2.8.(xxvi)
- e) Clause 6.4.5 "Hard copies to be send to" changed to "Copies to be mailed to".
- f) RGMO added in clause 6.3.7.1
- g) Point 6.2.7.xx added Regarding shutdown opportunity jobs compliance.
- h) Point 6.3.7 (xvii) also updated reg. Main Plant & Offsite CCR/CER Temperature deviations , Cyber Security readiness and incidents
- i) Point 6.3.7 (xviii) also updated reg. Electrical Systems. j) Annexure-2 added for RE Group ORT Format

BUH is the approving authority.

LMI on Guidelines For Operation Review Team (ORT) Meeting

1.0 INTRODUCTION

This document lays down the system for “Operation Review Team (ORT) Meetings of Power Stations” at Simhadri SMTPS as LMI.

2.0 PURPOSE

To lay down the procedure for conductance of monthly meetings of the Operation Review Team (ORT) of Power Station.

Objectives of ORT meetings are:

- i) Review of the operational and commercial performance of Power Station, identifying shortfalls in performance parameters, unit capability and corrective action thereof.
- ii) To finalize measures for maximization of generation as per requirement of the Grid.
- iii) To identify major constraints / deviations and O&M issues (Including issues referred to CC) and finalize Action Plans for improvements / correction.
- iv) To review forced outages and partial loading details and finalization of measures for reduction.
- v) To review the measures taken for O&M cost reduction/optimization
- vi) To identify and analyze the efficiency gaps of the Units / systems and finalize measures for improvement, so as to achieve the targeted Heat Rate.
- vii) To verify compliance of various Technical Systems, Procedures and Technical Compliance Documents (ODs, OGNs, OINs, LMIs, **SOPs**)
- viii) To verify compliance of Safety System including Fire Fighting System.
- ix) To review the preparedness and quality of planned maintenance.
- x) To review status of Renovation & Modernization in the Station as applicable.
- xi) To review O&M practices to ensure safe and reliable operation.
- xii) To review the steps taken for Conservation of Energy and other resources & results achieved, including status of EC budget activities & utilization.
- xiii) To review compliance of statutory requirements.
- xiv) To review action plans of ROPR.
- xv) To review the status of Action Plans arising out of various Audits (Technical Audit by Corporate OS, Internal Technical Compliance Audit by Power Station, External Technical Compliance Audit by Region, Safety Audit, Energy Audits etc.).
- xvi) To review Status of pending PG Tests, if any.
- xvii) To review the Action Plans arising out of various reviews, reports, investigations, etc.
- xviii) To review IT enabled systems related issues (SAP, PI System, TLA etc) including compliance.

3.0 SUPERSEDED DOCUMENTS

LMI/SMT/PS/EEMG-06/OGN/OPS/SYST/021Rev. No.: 2 May 2022

4.0 SCOPE

Monthly Operation Review of Simhadri STPS.

5.0 RECORDS OF REVISION

- a) SOP added in point 2,Vii
- b) TLA added in 2,xviii
- c) Clause 6.1.2 revised for RE Group ORT.
- d) Changes reg. PEM monitoring and discussion done in points 6.2.5.(v),6.2.6(xiii), 6.2.7.(xxvii), 6.3.7.(xii), 6.2.8.(xxvi)
- e) Clause 6.4.5 “Hard copies to be send to” changed to “Copies to be mailed to”.
- f) RGMO added in clause 6.3.7.1
- g) Point 6.2.7.xx added Regarding shutdown opportunity jobs compliance.
- h) Point 6.3.7 (xvii) also updated reg. Main Plant & Offsite CCR/CER Temperature deviations , Cyber Security readiness and incidents
- i) Point 6.3.7 (xviii) also updated reg. Electrical Systems.
- j) Annexure-2 added for RE Group ORT Format

6.0 PROCESS

6.1 REQUIREMENTS AND RESPONSIBILITIES

6.1.1 The ORT meetings of Power Station would be organized by Head of Regional OS at power station or through VC) in respect of all Power Stations in the Region and coordinated by nominated executive (ORT coordinator)of Regional OS. Corporate OS Station Coordinator shall attend the ORT at least twice in a year, the first being preferably in the first half of the year and the second in the second half of the year.

The ORT Meetings would be held on or before 7th working day of the month. The venue of the meeting would necessarily be the Power Station. The dates would be finalized by Head of Regional OS in consultation with the Head of the Power Station. The ORT meetings would be held in two stages:

- i) PRE-ORT DISCUSSIONS – Visit of ORT Team to Station and their discussions with concerned engineers / HODs of various disciplines in the Power Station – spanning normally 1- 2 days. The members of Pre ORT team should be available through VC on the day of ORT if ORT is conducted through VC.

- ii) ORT MEETING –Meeting chaired by Head of Station and participated by Head (O&M), all concerned HODs of the Power Station and ORT coordinator from Region. Corporate OS station coordinator will attend the ORT meeting at least twice in a year.

Note: Please see Process Flow-Chart for ORT Meeting attached as Annexure in this document.

- 6.1.2 For solar plants installed in the existing Coal stations the related issues will be discussed every month along with the ORT of the associated station.
- 6.1.3 The ORT meetings would necessarily be chaired by Head of the Power Station during the full meeting. In case of emergent situation, if Head of Power Station is not in a position to attend, he will obtain verbal approval of RED (Region) and in that case Head of O&M of the Station would chair the ORT meeting.
- 6.1.4 The following executives will participate in the ORT Meeting.
 - A. Power Station:**
 - i. Head of Power Station - in Chair
 - ii. Head of O&M of Power Station
 - iii. Head of EEMG and Commercial
 - iv. All HODs of O&M
 - v. Head of HR
 - vi. Head of Finance
 - vii. Head of Safety
 - viii. Head of Environment and Ash utilization
 - ix. Head of IT
 - x. Head of Technical Services
 - xi. Head of FQA
 - xii. Head of C&M
 - xiii. Head of BE
 - xiv. Head of R&M
 - xv. Shift Charge Engineer.

xvi. Any other HOD/executive as per requirement.

B. Regional Office

i. Regional (OS) ORT Coordinator

ii. One additional executive from Region OS as per requirement

C. Corporate Centre

Station Coordinator of Corporate OS – At least twice in a year.

6.1.5 Head (EEMG) of Power Station would be Power Station's local coordinator for conducting ORT Meetings.

Responsibility: HOD (EEMG/MTP)

6.1.6 The flow of information the ORT process is envisaged through different systems developed in SAP/ IT enabled systems. At the Station, necessary authorizations for different SAP / IT enabled systems used for ORT shall be controlled by Head of O&M. In Region, the authorizations shall be controlled by Head of OS. In Corporate level the authorizations shall be controlled by Head of OS- Operation.

6.1.7 All those associated with the ORT process shall use the SAP/IT enabled process as per their respective roles in the ORT process. All concerned shall strive to keep the information relating to their respective role accurate and upto date in SAP, as the information required for various reviews and during different stages of ORT process, will be retrieved from SAP only.

6.2 PREPARATION OF ORT MEETING

6.2.1 Each Sections in Station shall forward their respective filled up / updated ORT Input Formats to the EEMG Group by 3rd working day of the month.

Responsibility: All HODs

EEMG shall compile and upload the reports in SAP C-folder by 3rd working day of the month.

Responsibility: HOD (EEMG/MTP)

6.2.2 Responsibility centres in Station / Region / Corporate center shall update the status of notifications under ORT/ROPR/Tech Audit/ Trip Analysis/ EC/TC as and when there is a change in status.

Responsibility: All HODs

6.2.3 Corporate OS Operation group, shall send the dossier containing various

communications from CC groups / information on outages / performance details of NTPC stations / feedback required to the ORT Coordinator by 3rd of every month.

- 6.2.4 Based on the above information the concerned ORT Coordinator in Regional OS will prepare Agenda for ORT Meetings. The Agenda will also include the Review of Action Plans of previous ORT Meetings
- 6.2.5 The team of ORT Meeting from Regional OS shall make necessary preparations for ORT meetings.

This will include:

- i. Collection of status of earlier Action Plans related to O&M (including R&M, Safety, Energy Conservation, Ash Utilization etc.) and status on any specific issues raised earlier from Corporate/Regional groups from the notification system for ORT/ROPR/Tech Audit/Trip analysis/ Energy Audit/ Technical compliance in SAP.
- ii. Collection of feedback regarding major incidents of all NTPC stations for the month and specific issues related to the stations from the concerned persons in the Region, COS, CenPEEP or Corporate Engineering, etc.
- iii. Collection of Commercial performance (payments, outstanding etc.) of the Region.
- iv. Collection of monthly/cumulative financial year performance of all stations.
- v. PEM Score of All stations to be collected from SIIS.
- vi. Finalization of ORT agenda and forwarding to the Station in advance (minimum two days before ORT Meeting)

6.2.6 Pre-ORT discussions :

The Pre-ORT would be a preparatory meeting of ORT. The Pre-ORT discussions would be for 1-2 days. The Regional OS team of ORT would discuss with concerned HODs of various disciplines and visit various site installations to verify, identify and analyze various problems/issues/details. Detailed checking/ audit of identified systems / areas will be done as per the schedule prepared by the ORT Coordinator.

There would not be any specific Agenda for pre-ORT discussions. However, in case of any specific issue/problem, prior intimation may be given by Regional OS to Head of O&M of the Power Station. The pre-ORT discussions/visits of the Regional OS Team and executives of Corporate OS (At least twice in an year) will include the following:

- i) Visit to Ash dyke and detailed checking of one or more identified system area such that all critical areas are covered once in a quarter.
- ii) Verification of any data/details as found necessary.
- iii) Analysis of outage/trip reports, Start-ups, Tube failure reports etc. – Analyze and discuss Action Plan.
- iv) Random Checking of filled start up checklists and log books of SCE, UCE and discussion with HOD(On) for any deviations.
- iv) Visit various plant locations and check performance parameters, safety measures, housekeeping aspects, fire fighting system etc., wherever required and may link with SAP notification/PTW processes.
- v) Check the systems/aspects specifically mentioned in ORT format.
- vi) Assess the implementation of various Action Plans pertaining to 2-3 areas every month.
- vii) Discussions with concerned HODs on issues regarding commercial performance of the Power Station (e.g. DC, AG, SG gaps, DSM quality, RGMO/FGMO status etc.).
- viii) Discuss with Head of Power Station, Head of O&M, Group Heads and others regarding target setting, constraints faced in achieving full load etc.
- x) 105% Unit capability issues / Issues related to operating unit at Technical minimum level.
- xi) Confirm the status of notifications of issues under ORT/ROPR/Tech Audit which have been completed by various responsibility head
- xii) Issues related to PI system (PI server / PI Tags healthiness)
- xiii) PEM and Associated OFIs.

6.2.7 Agenda of ORT meeting:

The Agenda of the ORT meeting will be prepared by the concerned ORT Coordinator of the Region. The Agenda should be sent to Head of Station and Head of O&M and RED (Region). A copy of the same is to be uploaded in C folder of SAP for the reference of Corporate OS (Head of Operation), Station Coordinator of Corporate OS and all associated with the ORT Process. The Agenda will mention the serial number of ORT meeting at the top.

The Agenda will include the following (list is indicative and to be modified as per requirement):

- i. Presentation/discussion of last month's (and cumulative) performance of all NTPC stations (by ORT Coordinator).
- ii. Presentation on commercial performance of the Region (billing, realization and outstanding) (by ORT Coordinator).
- iii. Feedback from OCC meeting
- iv. Feedback from other stations of NTPC (by ORT Coordinator).
- v. Status of pending issues related to corporate (by ORT Coordinator).
- vi. Discussions on new Directives/guidelines/policy matters issued, if any (by ORT Coordinator).

- vii. Review of Action Plans out of previous ORTs/ reviews/studies/investigations / ROPR (by ORT Coordinator)
- viii. Presentation of monthly (and cumulative) operational performance of the Station and MOU targets vs. achievements (Station EEMG).
- ix. Review of compliance of statutory requirements. (Station EEMG).
- x. Detailed discussions on operational and MOU performance including identification of Action Plan and status of earlier Action Plans. (Station EEMG).
- xi. Discussion on the DSM Commercial / RGMO/FGMO/Ramp rate performance of the station, including identification of the gaps and action plan. (Station EEMG).
- xii. 105% Unit capability issues / Issues related to operating unit at Technical minimum level/ Issues related to Partial generation loss due to equipment.
- xiii. Detailed discussion on forced outages including tube leakages, trips, multiple trips, and major failures identifying root causes and action plans to stop recurrences. (Station EEMG).
- xiv. Compliance to requirements of reporting being followed as per COS-ISO-00-OD/GEN/004 on issues like multiple tripping's/Dangerous Occurrences / Major Incidents (Station EEMG).
- xv. Discussion on restoration of units after outages with a thrust on startup analysis and action plan to minimize parameter deviations during start up. (Station EEMG).
- xvi. Detailed discussion on efficiency gaps of all units and identify action plans / review the status of earlier action plans including PAT issues (Station EEMG).
- xvii. Fuel related issues (Fuel supply, Unloading issues, demurrage, Wagon tipper performance, Stacker Re-claimer availability, MGR Rolling plan, etc.,)
- xviii. Preparedness for and quality of Planned Maintenance.
- xix. Maintenance Management Issues
- xx. Review of compliance of shutdown opportunity checklist and shutdown jobs and planning thereof.(Defects declared as shutdown jobs)
- xxi. SAP Issues (Issues relating to correctness of data)
- xxii. Pre-summer/Pre-winter/Pre-monsoon preparation (when applicable)
- xxiii. Financial Issues (e.g. O&M Costs)
- xxiv. Budget issues(R&M, Capital Addition, EC, Ash utilization etc.,)
- xxv. R&M Issues
- xxvi. O&M Issues
- xxvii. PEM score and Associated OFIs
- xxviii. Compliance of Technical Documents Compliance of Technical Documents
- xxix. Status and action plan on Pending issues of earlier Technical Audit by Corporate OS, Technical Compliance Audit (Internal and External), reports, studies, investigations etc.
- xxx. Safety System monitoring like near miss incidents/accidents/investigation reports/first aid cases/ action plan to mitigate these incidents and accidents/status of previous investigation reports/compliance of reporting being followed as per COS-ISO-00-OD/GEN/004 (site safety incharge)
- xxxi. Reliability and effectiveness monitoring of Fire Fighting System including equipment / system healthiness. (site safety incharge)

- xxxii. Findings of Regional/Corporate Team during pre-ORT
- xxxiii. Targets for current month and next month
- xxxiv. Inventory status
- xxxv. Environment management Issues including New legal Requirements.
- xxxvi. Ash Utilization, DAETP Status/Performance
- xxxvii. Finalize Action Plans for all issues discussed and update the status of earlier action plans.
- xxxviii. Intervention / help required from Corporate Centre or Region
- xxxix. IT enabled Processes / Status (Issues related to PI system - PI server / PI Tags healthiness)
- xl. Action points of ROPR/RMC/Reviews done through VC by TOP Management
- xli. Discussion on safety issues like Disaster Management Plan, mock drills, training of disaster management plan, Implementation of SOPs for emergencies etc.,(station safety incharge)
- xlii. Status and action plan for certifications of the station (station BE cell)
- xliii. Any other issue, with the permission of the Chair.
- xliv. Finalization of date of next ORT meeting.

6.3 ORT MEETING

- 6.3.1 Complete Agenda items including additional issues important for the power station would be discussed.
- 6.3.2 The ORT Coordinator will make brief presentation of last month's (and cumulative) performance of all NTPC Stations.
- 6.3.3 The ORT Coordinator will make brief presentation on status of NTPC's commercial performance (billing, realization and outstanding, etc.).
- 6.3.4 The ORT Coordinator will also give feedback about NTPC's other stations (e.g. outage briefs, Tube leakages, etc) on any important area/aspect relating to O&M in particular or any other area in general. He will also highlight any important development in the Company. (as a representative from Corporate Centre/Region). Corporate (OS) Power Station Coordinator shall arrange to collect the above information and send it to Regional ORT Coordinator by 3rd of the month.
- 6.3.5 Discussions on any new Directives/Guidelines/Policy matters issued:
 - The ORT Coordinator shall bring to the notice of all present the recent orders/regulations of Central Electricity Regulatory Commission (CERC) e.g. on operating norms, tariffs, etc., guidelines or standards issued by Central Electricity Authority, guidelines from Ministry of Power or any other Central Agency.
 - i) The ORT Coordinator shall inform about Operation Directives (ODs), Operation Guidance Notes (OGNs), Operation Information Notes (OINs) or

- any other policy guidelines issued by Corporate OS or D(O).
- ii) EEMG representative of the Station shall brief the ORT regarding the newly issued Location Management Instructions (LMIs) by the Power Station.

Responsibility: AGM (EEMG)

Corporate (OS) shall arrange to collect the above information and send it to Regional ORT Coordinator by 3rd of every month. Brief discussions may take place on the above aspects for the sake of clarity or removal of any ambiguity/doubts.

- 6.3.6 The Station EEMG representative shall make detailed presentation of monthly (and cumulative) performance of the Station and actual achievements with reference to MOU targets.

Responsibility: AGM (EEMG)

- 6.3.7 Agenda of ORT meeting would be discussed which would be briefed item-wise by Regional ORT Coordinator. Detailed discussions will take place on the deviations and Action/Recovery Plans shall be finalized / updated on each issue / deviations to achieve targeted results. This would include the following areas (List is not comprehensive and may include other items also):-

- i) Commercial performance parameters:
 - DC, SG, AG, DSM opportunity loss, Incentive, etc.
 - Availability and constraints for Generation
 - Ramp rate, RGMO performance etc.,
- ii) Major reasons for loss in PLF and Partial loading, if any.
- iii) Major reasons for loss in availability, Planned and Forced Outage; and Action Plan for achieving zero forced outage.
- iv) Equipment's out for more than 15 days
- v) Efficiency/ PAT related parameters.
- vi) Generation vis-a-vis Grid requirements
- vii) Auxiliary Power Consumption
- viii) Sp. oil consumption
- ix) Make-up Water Consumption
- x) Preparedness and quality of planned maintenance
- xi) Maintenance Management Issues
- xii) PEM Score and Associated OFIs.
- xiii) Financial Issues {to be coordinated by HOD (Finance) of Power Station}
 - a) O&M Cost
 - b) ROE
 - c) Budget actualization (R&M, Capital Addition, EC, Ash Utilisation etc.)
- xiv) R&M Issues – progress of major R&M jobs vis-à-vis targets, identification of new R&M requirements and status of their approvals, R&M budget utilization, etc.
- xv) Critical issues and problems faced in the Power Station.

- xvi) Compliance with Technical Compliance Documents: Status of preparation of documents (LMIs based on ODs, OGNs, OINs etc.) and their implementation. Status of the points raised earlier during Technical Compliance Audits (Internal and External)
- xvii) C&I Systems: Status of protections and interlocks, auto loops, ATRS, EHC, cyber-Security readiness and incidents (if any), etc. along with Action Plan in case of any exception. Status of Main Plant & Offsite CCR/CER Temperature deviations along with Action Plan for AC system restoration to be discussed.
- xviii) Electrical System: validity of Electrical License, Availability of switchyard Bays, compliance of DGA testing schedule of EHV Transformers (GT/UT/ICT/ST/Reactors) at NETRA (quarterly for GT & Six monthly for Other EHV Transformers) and Local (Monthly), ERS Score and action Plan for the pending points and Monitoring of the critical spares and Unit assemblies and Pooled spares.
- xix) Issues related to safety observations/deviations, fire protection system, Status of testing of tools and tackles, Status of the issues raised earlier during Safety Audits etc.
- xx) Compliance status of mandatory requirements, like various licenses, testing etc.
- xxi) Status of Action Plans from Technical Audits conducted by Corporate OS
- xxii) Findings of ORT Team during pre-ORT.
- xxiii) Inventory status and reduction plan
- xxiv) Energy conservation, status of the points raised earlier during Energy Conservation Audits.
- xxv) Fuel linkage w.r.t. MOU targets.
- xxvi) Fuel unloading issues (Wagon tippler performance, demurrage, etc.,)
- xxvii) Power Evacuation Bottlenecks, if any.
- xxviii) Pre-Summer/Pre-Winter/Pre-Monsoon preparation(when applicable)
- xxix) Water chemistry issues.
- xxviii) ROPR/RMC/Reviews done through VC / trip committee recommendations and Action Plans
- xxix) BE Activities
- xxx) Environment Management – Issues like pollution levels, air/water consent , New Legal Requirements etc.
- xxxi) Ash utilization – Target vs. Actual, terms and conditions, present status, future plans, etc.
- xxxii) Targets for current month and next month
- xxxiii) Any other issue related to O&M of Power Station.

6.3.8 All Action Plans with Responsibility and target dates would be finalized during discussions on all issues discussed, as per requirements.

- 6.3.9 The responsibility head identified in the ORT for a particular issue shall be responsible for tracking the progress of issue resolution. He shall update the status of the issue in the SAP notification system as and when there is a change in status of the issue. He will act as a nodal point for coordinating with other groups involved in the resolution of issue.

Responsibility: All HODs

- 6.3.10 Next date/time of ORT would also be finalized during the meeting. All concerned will note the date and no separate communication would be sent by Power Station unless there is a change.

6.4 REPORT OF ORT MEETING

- 6.4.1 Based on the discussions held in ORT meeting, the ORT Coordinator of Regional OS shall finalise the draft Exception report at the Power Station itself and discuss with HOD (O&M) of the Power Station. Any critical issue would be discussed with the Head of the Station.
- 6.4.2 The Exception Report of ORT meeting would clearly identify the Action Plans on various issues with Responsibility and the Target Dates. In cases where more work is required to be done before the Action Plan is made, schedule for finalisation of the Action Plan would be mentioned.
- 6.4.3 Where the Action Plan involves financial implications for which Power Station is required to obtain approval of Competent Authority as per DOP, the Action Plan will also include the time schedule for obtaining the approval of Competent Authority.
- 6.4.4 The ORT Coordinator shall close the completed notifications in SAP (completed by the responsibility heads) after discussion in ORT within three days of conductance of ORT.
- 6.4.5 The ORT Coordinator of Region would finalize the Exception Report of ORT meeting as per Format no. OS-Q-ISO-P-010/F3-R2 by 10th of the Month and put up to RED. He shall also upload a copy of the exception report put up to RED in SAP C folder before 10th of the Month. RED of the region shall further review and in case of any shortfall in performance, he may revise the exception report with revised targets. If there is any change in the report after review by RED, the changes will be uploaded in C folder immediately after RED Approval. Hard copies of the Exception report after RED approval are shall be mailed to
- i. Head of Power Station
 - ii. Head of O&M

All others involved in the ORT system at Station / Region / Corporate level shall use SAP system for retrieving the exception report for necessary action at their respective levels.

- 6.4.6 The ORT Coordinator shall raise notifications for new issues discussed in the ORT meeting in SAP within two days after obtaining approval from RED(Region). If there is any change in target dates in the old issues, it shall be changed in the SAP system after approval from RED(Region).

6.5 POST ORT ACTIONS AND FOLLOWUP

- 6.5.1 Corporate OS shall have Regional and Station level coordinators who shall be responsible for coordinating and following up issues related to Region / Station.
- 6.5.2 The Station Coordinator (from Corp. OS) shall take up the critical issues, from the ORT exception reports uploaded in C folder, and issues from the notification system in SAP that are to be handled at corporate level, and follow them up with concerned departments in the Corporate Centre. He will give the feedback to the Regional ORT Coordinator on various issues.
- 6.5.3 Head (Operation) at Corp. OS will compile ORT issues from ORT reports of all stations for putting up to Head of Corporate OS by 13th of every month.
- 6.5.4 Head (Operation) Corporate OS will compile the Exception Reports of ORT meetings of all Power Stations and would put up the summary of exceptions to D(O) through Head of Corporate OS by 15th of every month, with a copy to ED (Region) and Head of Power Station. The issues requiring attention of groups not under Director (Operations) shall be segregated by Corporate OS (Operation) group and sent to respective directors through Director (Operations) by 15th of every month. Any critical issue requiring attention of CMD would be put up by Head, Corporate OS through D (O) to CMD by 20th of every month.
- 6.5.5 A monthly meeting will be organized at Corporate OS between ED (Engg) and ED (OS) to discuss and resolve issues of the station in the last week of the month. The status of issues discussed in this meeting would be communicated to Region Coordinators by 3rd of every month
- 6.5.6 Action Plans of ORT meeting would be undertaken for implementation at the earliest. Monitoring of the same would be done on weekly basis by Head (O&M) of Power Station and on fortnightly basis by Head of Power Station, the major exceptions of which will be sent to RED (Region)
- 6.5.7 The review of ED (Region) and/or Head of OS in Corporate Centre would be as per requirement. The exceptions of ORT shall be a part of agenda of their review during their visit to stations.

- 6.5.8 The ORT Coordinator of the Region will follow up and monitor the Action Plans with the Power Stations and Regions.
- 6.5.9 The next ORT meeting would necessarily review the status of Action Plans of previous ORT meetings.

6.6 RECORD TO BE MAINTAINED

SL No	Document	Responsibility	Frequency
1	Agenda of ORT meeting.	ROS	Monthly
2	Exception Report	ROS	Monthly
3	ORT Departmental Sheet	Station- Department HOD/EEMG-MTP	Monthly

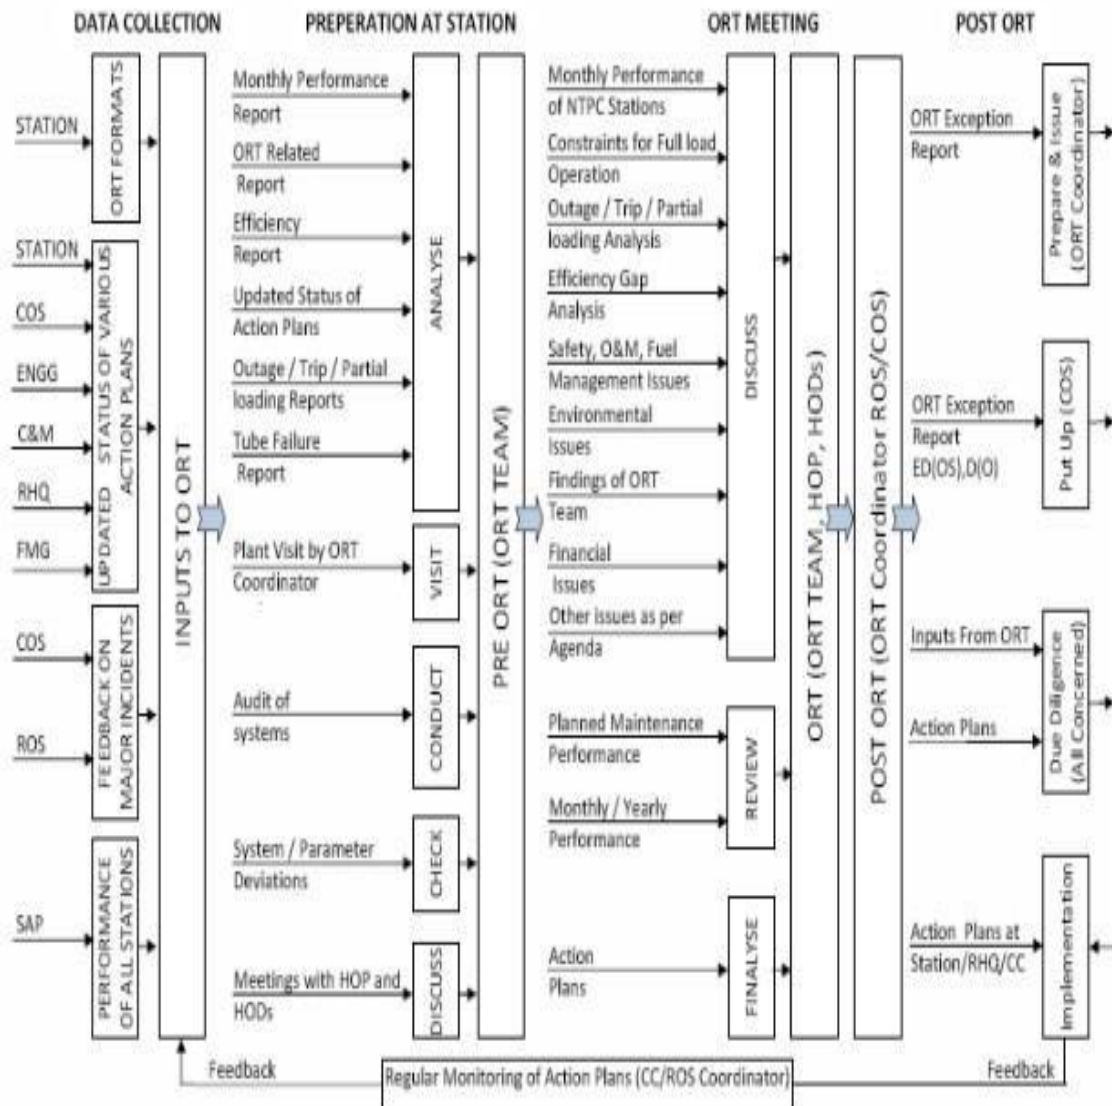

7.0 REVIEW

The Head of Station/Project is responsible for reviewing this document within 2 years basis or as necessary.

Annexure -1

ANNEXURE

PROCESS FLOW-CHART FOR ORT MEETING

Station: _

Annexure-2

ORT No & Date

Exception Report for the month of MONTH YYYY

Date: dd.mm.yyyy

01. CONDUCTANCE OF ORT

SL NO	PARTICULARS	EXCEPTION	REMARKS
01	Receipt of data from Station by 3rd		
02	Receipt of data from CC by 3rd		
03	Input ORT formats received from all groups		
04	Completeness of data in ORT input formats		
05	Date of conductance of ORT by 7th		
06	Head of Department not present in ORT		
07	Area of discussion not done in ORT		
08	Presence of station coordinator from COS as scheduled.		

Highlights of Station during the month-

02. MOU

Parameter	Pro rota Target for the month	Actual for the month	Pro rota target till date	Yearly Cumulative	Remarks
Generation					

03. Operational performance report

Parameter	Gross Gen. (MUs)	Inverter/WTG availability %	% CUF/PLF	Design PR (for Solar)	Actual PR (For Solar)
For the month (CFY)					
For the month (PFY)					
Till the month (CFY)					
Till the month (PFY)					

04. Total Inverter/WTG Outage

Category	Planned	Forced	Grid	Total
MWhrs				
MUs				

05. Major Inverter/WTG Outage details (Outages more than 12 Generating hrs)

Sr No	Outage Detail	Action taken	Outage date & Time	Restoration Date & Time
1				
2				

06. DSM losses in INR

Current FY	April	May	June	July	Aug	Sept	Oct	Nov	Dec	Jan	Feb	March
Pre. FY												

07. Water consumption in Module washing (For Solar)

Water consumption (KL)	During the month	Till Month

08. Calibration Status (Pyranometers/Commercial Energy Meters)

Equipment/Meter	Sr No of meter	Calibration Date	Due Date of Calibration

09. MAJOR ISSUES OF THE STATION

1. Critical issues of the station (*as per the priority*)

Sr No.	Details of the Issue	Action Plan	Target Date	Responsibility
1				
2				

2. Statutory issues (If any)

Sr No.	Details of the Issue	Action Plan	Target Date	Responsibility
1				
2				

3. Licenses expiring in next four months

Sr No.	Details of License	Action Plan	Target Date	Responsibility
1				
2				

4. Major Equipment failures

Sr No.	Details of Failure	RCA
1		
2		

5. Status of Critical Spares

Sr No.	Exception	Action Plan	Target Date	Responsibility
1				
2				

6. Safety Highlights and audit compliance status-

7. Technical compliance / System Deviations (LMIs/OINs/OGNs/ODs/SOPs)-

Sr No.	Deviation Details	Action Plan	Target Date	Responsibility

8. Financial performance & Budget Utilisation

Parameter/Main Heads	MoU Target (Upto the Month)	Actuals (As per the Month)
Gross Revenue		
Employee Cost		
R&M Cost		
Stn overheads		
CC Expense		
Depreciation		
Finance Cost		
Total Expenditure		
Profit Before tax		
ROE/IRR		

9. Issues to be taken up with CC (Engineering/OS/RHQ)

10. Expected liabilities of the station (Immediate, Short term, Long term)

11. Any Other issue/Environmental/policy etc.

12. STATUS OF ORT/ROPR/TECH AUDIT/PTW AUDIT ISSUES

REVIEW / AUDIT	NO OF ISSUES IN PORGRESS / INCOMPLETE AFTER LAST MONTH	NO OF ISSUES CLOSED	NO OF NEW ISSUES	NO OF ISSUES IN PORGRESS / INCOMPLETE CURRENT MONTH
ORT				
ROPR				
TECH AUDIT				
PTW AUDIT
